Hello Joyce.

The construction contractor for our Third West Substation expansion project has been selected. The contractor is developing an implementation plan to describe how the Work Plan for the project will be adhered to and to detail processes (for example decontamination). We are going to meet at the project location on August 8th. Craig Barnitz (UDEQ) will attend. The intent of the meeting is to review and discuss what the contractor proposes. After we get Craig's input, we would appreciate your input as well.

Would you be available for a conference call mid to late next week (week of the 8th)?

Please let me know and suggest some dates and times that would work best for you.

Thank you for your time,

Brian King
